**** NOTE:

For these employees, the service increment was added to base salary when the 3/3/08 and 3/3/09 4% general wage increase were applied. The original service increment amount was then backed out, and the increase on the service increment remained in the base salary. As these employees had already received 8% on the service increment (which was added to base salary), they did not receive the 3/2/10 5.47% in addition to the 8%.
